Is the Date Set For District Attorney Slatery to Assume Office—Confirmed by Senate Tuesday.

Washington, May 20.—The nomination of Perry B. Miller of Morganfield, to succeed Judge George Du Ruelle as United States Attorney for the Western Kentucky district, which includes Louisville, is expected to be made and confirmed this week. Mr. Miller probably will take office in June. T. D. Slatery of Maysville, newly appointed United States Attorney for the Eastern district, received confirmation at the hands of the Senate yesterday, but will not assume his duties until September 1. Mr. Slatery desired to wind up his personal legal affairs, and District At-

torney E. P. Morrow, at Covington, has some cases to conclude, so the necessary arrangement was made by Senator James. When Messrs. Miller and Slatery have assumed office, there will be no more important Federal places in the State to fill with Democrats. The next district attorney at Louisville is about 45 years old, a native of Logan County. He has never been in the public eye particularly, never having sought public office. He was graduated from Bethel college and was once a law partner of former Congressman H. D. Allen. Next year Mr. Morrow, it is understood, may make the race for the Republican nomination for governor. In the ordinary course his term as district attorney would not have expired until February, 1916.

The statement must go with all bank reports.

TWO RUNAWAY BOYS CAUGHT.

Yesterday afternoon about 5:30 o'clock, two small boys about 10 and 12 years old were caught near the coal docks. They had been enticed away from their homes in Covington, by a negro who was going to take them to the coal mines.

They were taken to Mr. Henry Wise's house and while there eating supper Policeman James Dunn came and took them in charge. They were sent home this morning.

When sent out to work on the streets they refused, but Guard Clark convinced them that he meant business and they went to work.

HONOR FOR MAYSVILLE

James Childs, Member of Pisgah Encampment Elected One of the Grand Officers of the Grand Encampment.

The annual meeting of the Grand Encampment of Kentucky Odd Fellows was held yesterday at Lexington in Merrih Lodge Hall, with a complete attendance of representatives from the various encampments of the State.

The reports of the various officers showed the Order to be in a much better condition this year than for some time past, notwithstanding a loss of 38 members since the last meeting.

Two things at this meeting were of interest to Encampment Odd Fellows in Maysville. One was the amendment to the by-laws of Pisgah Encampment increasing the sick benefits \$1 per week, which was reported favorably by the committee on By-laws, and the other was the start through the Grand Encampment chairs of a Maysville Odd Fellow, the one chosen being Mr. Jas. Childs, who was elected Grand Junior Warden.

The complete list of officers is as follows:

Grand Patriarch—Charles E. Cooke, Middlesboro.
Grand Senior Warden—Wilder De Pay, Frankfort.
Grand Junior Warden—James Childs, Maysville.
Grand Scribe—R. G. Elliott, Lexington.
Grand Treasurer—B. J. Durham, Danville.
Grand Representative—John S. Gaunt, Carrollton.
Mr. George Schwartz was a member of the Finance Committee, Mr. George W. Crowell a member of the Committee on Appeals and James Childs a member of the Committee on the State of Order, all three important committees.

A new boys' dormitory having been in a state of completion at the Odd Fellows W. and O. Home, the Grand Encampment voted to name it the encampment dormitory, thirty encampments throughout the State furnishing the rooms. Past Grand Patriarch J. Barbour Russell of this city was the first to have the honor of furnishing one of the rooms in the new dormitory. The next meeting of the Grand Encampment will be held at Cynthiana, Ky.

Public Appreciation---the Sign of Success

That the class of clothes we handle is appreciated, is evidenced by our large number of satisfied customers.

Most men have learned the importance of dressing well. The average man knows that good clothing is a Business asset. Long experience has taught us to discriminate in selecting clothes that we think well-dressed men demand. When you purchase one of our new Suits you will be becomingly clothed in a Suit that will add to the effectiveness of your appearance, and at moderate expense too. If you are a Stranger to our Clothes come around and let us show you the new models.

The public by this time has learned that our Men's and Boy's Shoes are of the highest grades.

Can any Democrat point to a single industry that President and a Democratic Congress? Per contra, is it not a fact that almost every industry in the country is less prosperous now than it was a year ago.—Steubenville (O.) Herald.

The general conference of the Methodist Episcopal Church, South, voted to reconsider its action severing its relation between Vanderbilt University and the church as a whole, and to contend for control of the university.

JOSEPH BENSON WOULD COME BACK.

Former Senator Joseph B. Foraker has formally announced his candidacy for the nomination for United States Senator from Ohio on the Republican ticket.

In a formal letter Senator Foraker touched upon national issues, disagreeing with President Wilson as to his Mexican policy, and opposing the repeal of the Panama Canal tolls act.

ONE OF THE PARAMOUNT DUTIES.

An Iowa Democratic daily says that one of the paramount duties of Congress during the senatorial term beginning March 4, 1915, "will be legislation to give the farmer a greater share of the profits of his industry and greater market facilities." This is a pretty hard slam at the Democratic Tariff policy of giving the farmers of other countries equal privileges in the American markets with the American farmers. America for the foreigner and "the world for the American" is the slogan. It is rot.—Marion (Ia.) Register.

BETTER THAN MACADAM?

The abandonment of macadam as a road pavement is recommended by William Elbring, Highway Engineer of St. Louis County, Mo., according to newspaper versions of his recent annual report. Mr. Elbring states that rapidly increasing traffic has made various forms of macadam road construction inadequate and urges the construction of permanent pavements of brick or concrete costing from \$15,000 to \$20,000 per mile. The report shows that \$372,161 was expended on maintenance during the past year, an increase of nearly \$12,000 over the previous year.—Engineering News.

BAD ROADS CAUSE COLLOSSAL LOSS.

Bad roads cost the United States \$7,500,000,000 per annum is the reported estimate of the Highway Commissioner of Ohio. He figures that the average cost of hauling one ton one mile on a good, hard road is 8c., while the present average cost is 23c., and in some districts it is as high as 54c. There is no doubt respecting the economy of good roads, but such estimating as the Commissioner offers takes no account of the capital outlay necessary to get the roads. If the latter be built under the auspices and in the ways that have prevailed in the State of New York, there may be a loss of money instead of a saving. The matter is one of great importance to many mining districts, where wagon transportation is a high charge on ore production under present conditions, and where auto trucks can offer but little help until the roads are improved.—The Engineering and Mining Journal.

WHERE HE WILL HAVE

TO LOOK FOR VOTES.
The wool growers, dairymen, poultry raisers and other people of Oregon who have been hit by the Democratic Tariff law (and who has not?) will register the decree at the polls in November that Mr. Chamberlain will have to look for his votes to the people whom he and his party helped, to wit: The people of China, Australia, Russia, etc.—Salem (Ore.) Statesman.

EDITORIALETTES.

It is not easy to show the way to a blind man. An ounce of patience is worth a pound of brains. No wind can do him good who steers for no port. The end of passion is the beginning of repentance.

A man must make his opportunity as oft as find it.

The man who obeys his superior instructs his inferior.

Possession is nine points of the law and they say there are ten.

One penny in the money-box makes more noise than when it is full.

If everybody were to begin paying cash, trade would slacken.

As a general thing, a woman is a person whose dead and gone kinfolks were more important people than her live ones.

Sometimes it looks like it is the kind of man who doesn't know what he is talking about that always feels called upon to say something.

Tell a man that the end of the world is near and he will pay no attention to you, but tell him he is about to lose ten dollars and he gets nervous at once.

One of the strangest things in this world is why the father who has raised a girl thinks he knows more about her disposition than the man who has been married to her a few months.

AN APPROPRIATE TEDDY STORY.

Let us all retire from the field in the matter of telling Roosevelt stories. "Jim" McBride, who writes politics for the New York American, has won the medal. His is a dream story. "I dreamed I had died and gone to heaven," he said, "and when I reached the pearly gates, Col. Roosevelt was just ahead of me. Peter was welcoming him in."

"I hope we can make you feel at home here," said Peter.

"O, I'm at home any place," said the Colonel, "but I'd like to look about a bit."

"Is there anything particular you'd like to look over?" said Peter.

"Well, I've heard a good deal about your music," said the Colonel.

"We think it's very good," said Peter. "You see we have so many singers now. We've been accumulating them for a long time."

"How many tenors have you?" asked the Colonel.

"About a million," said Peter. "Would you like to hear them?"

"Very much," said the Colonel. "A million tenors? That's splendid."

"The tenors sang."

"Bully!" exclaimed the Colonel. "Have you got that many sopranos?"

"Certainly," said Peter. And the sopranos sang.

"Simply gorgeous!" exclaimed the Colonel. "And have you a million altos?"

"Yes," said Peter. And the altos sang.

"Bully; certainly bully!" said the Colonel. "Now let's have a quartette."

"How about the basses?" asked Peter.

"I'll sing bass myself," said the Colonel.

Resignation of Moses Friedman, superintendent, and S. J. Noir, chief clerk of the Carlisle Indian School, were accepted by Cato Sells, Commissioner of Indian Affairs.

FLEMING COUNTY REFUSES.

The Fleming County Fiscal Court, in call session assembled Monday, refused to declare Fleming County a tuberculosis district in connection with Bourbon, Nicholas, Robertson and Mason, and also declined to appoint a committee to confer with committees from these counties relative to a proposed sanatorium at Parks Hill.

BLAMES RADIUM

Much Heralded Cure For Cancer May Also Be Cause, Declares Foreign Physician.

London.—Dr. Walter S. Lazarus-Barlow, who has recently had success in the treatment of cancer by radium, says radium in the human body may also be the cause of cancer.

At a recent meeting of physicians and surgeons he told of experiments he performed upon animal cells and explained that while cancer might be divided into various classes it was nothing more or less than disordered cell growth. "It is reasonable to suppose," he said, "that there is one cause, and I would suggest to you that in the radium and radiation we have the probable cause."

Cancer was very closely associated with inflammation to such an extent, he said, that chronic irritation was the only cause which was universally accepted, but chronic irritation was so closely bound up with bacteria that there arose the question whether radium stimulated an animal cell.

Dr. Barlow said experiments of his had demonstrated that bacteria actually pulled radium out of a solution and attracted it to themselves. If radium therefore were circulating in the blood while bacteria were present, the latter would attract and locally deposit the radium, forming a focus of that substance, producing stimulation of the cells in the neighborhood. He said radium was present at times in normal human tissues, and it was found in greater quantities in cancerous tissues. Disposing of the theory that cancer was necessarily caused by irritation, the doctor pointed out that it would naturally be assumed that cancer of the gall bladder would be relatively common, whereas it was rare.

QUICK STEP

The World is In Gear—Home Grown Facts and Suggestions For Spring Planting.

(Hillsboro (O.) Dispatch.)
A. P. Sandles has given out the following letter to farmers. Every item is of interest and is deserving of attention:

Why not give the old farm home a name?

Why not every farmer have a printed letter head and envelope for use in his correspondence? Costs little.

Paint will make any building appear twice as beautiful. Try it.

Clean Up Day in the country is as badly needed as it is in town.

What is the name and address of the person who will keep the neatest lawn in front of the home this summer?

A silo on the farm, properly used, will pay twenty per cent. profit each year, on its cost.

How many township trustees actually take pride in doing their duty toward the public road?

Ohio has been losing its farm orchards at the rate of ten thousand acres a year for twenty years. Prune and spray is the recipe.

One ounce added to the weight of each ear of corn grown in the United States, would fill a line of wagon beds, forty bushels to each load reaching once around the world. The corn boys are doing the trick.

Why not improve the appearance of the grounds, around the church and school house this summer. Some of them are eye-sores now.

Ohio newspapers are giving more encouragement to farmer boys than many farmer fathers are giving.

A county experiment farm, properly managed, will prove a blessing and a big profit to any county that secures one.

The boy who grows the most corn on one acre of dirt, in each county of the State, will get a free scholarship to the College of Agriculture, Columbus, good for three years. Cash value \$60. This is in addition to the trip to Washington.

A keen student of human nature and business affairs was recently riding on a train across Ohio. Out of the car window he saw a well kept country home. Good buildings, well painted, neatly and conveniently arranged. Shrubbery, flowers and shade. "I will bet a red apple that the owner of that home votes before dinner on election day."

Ohio's loss from lack of good drainage amounts to several million dollars a year. A tile ditch will pay a bigger rate of interest on money than any bank will pay. Ask the bank.

A crown on Ohio roads will do the Buckeye State more good than any crown on any king anywhere. Keep water off the road and it will be fit to travel.

Why not get a photograph of your farm home, and let the home newspaper print it on letter heads for your own use? The cost is small, but it looks like the farmer was a business man.

THAT TIRED FEELING

Suggests Grandmother's Remedy.

It's true, the season is here with its sudden changes, and the old idea that we need a blood medicine is not without reason. Too much heavy food has caused a torpid liver, sluggish blood, and a weak, tired feeling.

Sulphur, cream of tartar and molasses was grandmother's remedy but that has long ago been displaced by Vinol, a combination of the two most world famous tonics, namely, the medicinal curative elements of the cod's liver, without oil, and iron for the blood.

Vinol builds you up, makes you eat more and digest better, makes your blood rich and pure—puts healthy color in your cheeks.

N. G. Clift of Opelika, Ala., says: "Last spring I was all run-down, no strength, no appetite. I took Vinol and was greatly benefited by its use, as I soon felt strong and well as ever."

We guarantee Vinol to satisfy you and refund your money if it does not.

"GOING TO WIN," SAYS DURBIN

Former Governor of Indiana Predicts Republican Victory in This Year's Congress Election

Winford T. Durbin, of Anderson, former Governor, who was in Washington, sent the following message to be read to the Republican State convention:

I most sincerely regret I am not numbered with the Republicans who gathered for the State Convention. I am enthusiastically with them in the spirit of the occasion. Let the campaign battle cry be victory. We are going to win because the principles of the Republican party have been, still are, and always will be everlastingly right, while the Democratic catch phrase "retrenchment and reform" simply means extravagance, higher taxes, increased debt, general demoralization, curtailment of business, lower wages, bread lines and soup houses.

Present commercial and industrial conditions throughout our country indicate that we are to have the proverbial repetition of Democratic legislative and administrative incompetency. Two times during the last thirty years have the Democrats controlled Congress in both branches and affairs of the country as administered at Washington. And they turned prosperity and progress into depression and disaster. And now we are promised that this record will be repeated.

We should not forget the conditions brought about by President Cleveland's Democratic rule from March 4, 1893, to March 4, 1897. At the time we voted for McKinley in November, 1896, three-fourths of the mileage of our railroads was in the hands of receivers and were being operated by the sale of court promises to pay, being unable to earn the scant expense of the times; 60 per cent. of our labor had no employment, while the remaining 40 per cent. was employed only four days in the week at wages less than half that paid when Woodrow Wilson was inaugurated president in March of last year.

Our exports during the last occupation by the Republicans have grown over two billion dollars a year, and most of the time since the inauguration of President McKinley in 1897 half of our skilled and more than a third of our unskilled labor has been employed in the production of articles for export most of the time. The endeavors of President Wilson, his officers and Congress, have been employed during the last year, and are so employed at present, in destroying this export business and throwing out of employment the millions of men and women who depend upon it for existence.

With them it is not a matter of control so much as destruction. They see the button on the barn door, and it looms large, but they can not discern the barn. Whether the destruction of the producing powers of the greatest producing country on earth shall be

made as complete in 1894, 95 and 96 is a matter to be determined only by the voters of the country, who will have their first opportunity next November in the election of the entire lower house of Congress and one-third of the Senate. The stage setting for the destruction of our farming interests has been prepared by the Democratic party in the Underwood Free-Trade Tariff law with greater care, precision and foresight, if possible, than those of the factory and shop. Every essential article of the American farm, from cattle to grain and timber, has been placed on the free list, while in return no article of essential interest to the farmer not produced by him has been placed nearer his grasp.

At last the South has come into absolute control of the Federal Government, and it would seem that some of the questions we thought we had determined by arms of war must be determined by the ballot. By the new secret caucus rules adopted the entire Democratic vote in Congress joins in a solid body under a vote of the majority. A vast majority of the Democrats in Congress come from the country south of the Potomac and Ohio rivers. Their votes in caucus bind every Indiana man in Congress at present to vote, act and think as do the men from South Carolina or Mississippi. We are going to win.

There is at least this to say for the self-made man: He seldom attempts to saddle the blame on anyone else.

Any old time a girl looks as though she was being squeezed when she is wearing clothes it is a sign that she would look better in a bathing suit.

TAKE THIS MAN'S ADVICE

Try the Great Kidney Remedy.

It always gives me pleasure to recommend anything that is right and so I feel it my duty to herald the praises of Dr. Kilmer's Swamp-Root.

For years I was troubled with Kidney disease and it was so intense that I was bedridden for days at a time. I gave up all hope and doctors for miles around gave me no help. Incidentally I tried several patent remedies and at last tried Swamp-Root. From the first it gave me relief and it was no time before I was able to be up and around and now I am perfectly well and able to work as I used to before my terrible sickness.

So now let me thank you for your wonderful discovery and take this opportunity to recommend it to all who suffer from kidney troubles.

Yours very truly,

Prove What Swamp-Root Will Do For You.

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention the Maysville Daily Public Ledger. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

The unusual feature in connection with the recent marriage of Billie Burke, the actress, is that Miss Burke had not previously indulged in matrimony.

Probably no woman ever married a man for the express purpose of reforming him. When a woman ties herself to a skate she does it for the reason that she is in love with the skate.

SHOT GUN SHELL

Got in Bread Pan and Exploded In Stove Seriously Injuring Mrs. Oma Carpenter

Muses Mills, Ky., May 19.—A sorrowful accident happened to Mrs. Oma Carpenter, a young 18 year old widow, who resides with her father-in-law, William Carpenter, 3 miles east of this place late last Sunday evening, when a shot gun shell that had in some way gotten in a bread pan in which she was warming some bread over for supper, and had placed in the stove oven, exploded just as she opened the stove door to remove the same. Over a dozen shot struck her in the face and inflicted a very serious if not dangerous wound. Dr. Lowe of this neighborhood was hurriedly called who removed several shot and pronounced her case very serious.

Her husband died near here last month with typhoid fever, leaving her with a baby 5 days old.

AN INCIDENT OF THE WAR OF 1846.

The Vicksburg Sentinel of September 11, 1846, has this:

"There are few situations in which men are placed together in which there is not some means found to give utterance to the terrible voice of public opinion, and although in the army, with its implicit obedience and strict subordination, the men are expected to have no opinions, and dare not question the conduct of their officers; yet they have even there devised a method whereby their officers are regularly arraigned, and in spite of all their vigilance, and strictures the free opinions of the whole army passed upon them with impunity."

The manner of doing this was best illustrated by example. Col. D., of one of the Regiments of Volunteers; on the march from Point Isabel to Matamoros; came to a very filthy and deep slough. There was no very pressing

need that the regiment should go straight across it; and there was a very good path but little out of the way around it. But the military enthusiasm was on the Col. side. He considered it unsoldierly to turn to the right or left, and straight through the slough must the regiment march. Seeing the men rather reluctant, he drew his sword, rushed to their head, and giving the word of order to his men, "Follow your Colonel!" in he plunged. The first step brought the striking mud waist deep; and the passage got "no better; fast" and sometimes waist deep, and sometimes neck deep, the men at last crawled out on the opposite side like so many mud-turtles—the enthusiasm of the Colonel fairly and completely gone. The whole affair was so absurd, and the Colonel was so bitterly reproached and ridiculed by his brother officers for his folly, that the report is that he sat on a log, and lifted up his voice, and wept."

RESULTS OF TARIFF REVISION

An Enormous Amount of Capital Has Been Destroyed and Many Are Out of Pocket.

(Boston Commercial Bulletin.)

Only a year or two ago the Payne Tariff was the object of bitter denunciation. It was held responsible for all the ills on the calendar. Vested interests were declared to be benefited by it at the expense of the common people. Guarded against foreign competition, American industrial establishments, it was averred, had found it possible to allow a considerable part of their machinery and equipment to become obsolete, thereby imparting an additional impetus to the increase in the cost of living. In a word, if all that the advocates of a sweeping Tariff reduction said were true, the country was headed straight for the demitition how-wows.

Well, we have now had about seven months of Democratic Tariff regime, and where are we at? Is there any manufacturer, commission man, wholesaler, retailer, clerk, mechanic or common laborer who can truthfully say that his position has been improved as ever so slight a degree by the new order of things? That some articles are cheaper than they were formerly there is no question. How could it be otherwise in the face of the record-breaking merchandise imports of \$182,000,000 for March? But of what benefits is this when hundreds of thousands of workmen are out of employment and thousands reduced to such circumstances that they are compelled to resort to the free soup kitchens to keep from starving?

We are told that it takes time for business to adjust itself to new Tariff conditions, and that when the readjustment is completed conditions will begin to improve. This means, presumably, that a certain amount of wreckage was inevitable and that until this is cleared away it will be an impediment in the paths of progress. This is entirely logical. When a train has been wrecked, transportation is interfered with until the obstruction has been removed. But is the transportation company better off afterwards than it was before the wreck? Surely capital has been destroyed and someone is out of pocket. The day will come when little trace will remain of the devastation which the American beet sugar industry is now undergoing, but the fact will remain

AL LEAKE

Celebrates His Home Coming to the Charleston Team By Defeating Maysville By Score of 2 to 1.

In the second and last game of the series Charleston defeated Maysville yesterday by the score of 2 to 1. The game was exciting and well played throughout, both pitchers being backed up by sensational fielding, and just enough batting to make everything interesting. The game was remarkable in so far that about half the hits were good for two or three sacks.

With a record of having won the only two games he had pitched for the locals, Raemes went into the box and pitched a nice game of ball outside of the third inning, when a single, a triple and a wild pitch were good for two runs and the game.

Leake did the twirling for the Senators and was invincible with men on bases, except in the seventh inning when Rich tripled and scored on Barrett's sacrifice fly to left. Emery followed with a double, Mace singled and stole second. Emery was thrown out

at home when he tried to score on Raemes' roller to second. Badel ended the agony by lifting a high fly to left.

RIGHT OFF THE BAT.

Ironton arrives today for a two-game series. Game called at 3:15 o'clock.

Either Sanford or Connors will do the twirling for the Cubs today.

The locals made a strong bid to tie the score in the ninth inning. With one out Emery tripled, but was thrown out at the plate when Mace bounded to Keating. McDaniel went in to bat for Raemes and popped up an easy fly.

Badel made a fine one-hand catch of Wier's drive to right in the second inning.

With two men out in the first inning Nutter hit for three sacks. Raemes then fanned Young.

Maysville executed three very fast double plays that assisted Raemes in getting out of some very tight holes.

"Ladies' Day," the old hoodoo seems to stick with the boys, as they have lost the only two games they have played on that occasion.

Al Leake claimed he hurt his knee and Ratliff went to run for him in the third inning. Bittel singled and Ratliff was doubled off second when Keating tried to steal.

A little bone was pulled in the fifth when Rich ran to and attempted to take Hodge's high fly, which in reality belonged to Raemes. Consequently the ball was muffed.

With two out and Carmony on first in the third inning, Hodge doubled to left. Badel made a sensational stop and relayed the ball to Rich, to throw Carmony out at the plate.

With Nutter on first in the sixth inning, Wier shot a hot grounder to Rich, who made a sensational stop, threw Wier out at first, and Nutter was thrown out at home by Barrett.

Al Leake, the first man up for Charleston in the eighth, got a triple. Raemes then showed his skill by not letting the ball get out of the infield on the next three batters and consequently retired the side without Leake scoring.

Umpire Jacobs, who has been officiating here for the past two games, seems to have improved somewhat since last year. He is much quicker and better than ever before and his decisions are seldom questioned. He also seems to have added about twenty-five pounds in weight during the winter.

The Ladies' Aid Society of the First Baptist Church will meet this afternoon in the Sunday School room of the church at 3 o'clock.

Ex-Judge J. M. Lassing announced Tuesday that within ten days or two weeks the Latonia National bank may again open its doors.
